

Catholic Directory Manager

Tired of hunting down your parish statistics and filling out paper forms for the Kenedy™¹ Directory each year? Process your annual updates in a fraction of the time with ParishSOFT.

Catholic Directory Manager (CDM) is the fast, easy ONLINE way to compile and submit data for The Official Catholic Directory™¹ online. ParishSOFT calculates all of the Kenedy statistics you'll need, so you can get accurate numbers for First Communion, individual Catholic members, and more in seconds. Just log in to your diocese's Catholic Directory Manager website, type your organization's updates directly into the electronic form and submit.

Saves administrative time and money

- Paperless CDM forms never get misplaced or delivered to the wrong person.
- Electronic delivery saves mailing costs and eliminates the need to process paper forms.
- Side-by-side layout shows last year's listing next to this year's information, making it easy to compare information, and edits are as simple as "click and type."
- When used with the ParishSOFT suite, CDM eliminates the time-consuming task of compiling statistics manually from various paper and electronic sources—current, accurate statistics are available from one quick report.

Streamlines the annual Catholic Directory update process by up to 97%

- Average CDM review and submission time for a parish is 5 to 10 minutes, compared with 3 hours or more to analyze statistics and process paper forms without the help of your ParishSOFT system.

Provides Web-based ease and flexibility

- Web-based system lets staff submit annual Catholic Directory updates for all of the organizations they manage from a single location, regardless of where the paper forms were delivered.
- Convenient online forms allow for last minute corrections to be made before final submission to the publisher—late fixes are comparatively cumbersome once paper forms have been mailed to the diocese.
- ParishSOFT updates the Web forms each year, so your CDM program will always capture exactly the information needed for your Official Catholic Directory™ listings for parishes, schools, retirement facilities, retreat centers, and more.

Complete Church Solution

Catholic Directory Manager is part of an integrated suite of software products that saves money and connects churches with staff, parishioners and the communities they serve.

ParishSOFT provides software and services that help churches manage their family and member records, religious education, ministries, contributions, pledges, online giving, accounting and prepare reports.
