

ConnectNow My Own Church

How do you keep up with all the parishioner changes and new family registrations at your parish?

ParishSOFT's My Own Church gives members and staff anytime, anywhere access to their member and family records on the Web through a secure connection.

Members gain the freedom to update their information

- Log-in access to a secure website
- Easy-to-use system lets members register, edit their family data and add photos
- Click-and-go access to Online Giving lets members set up or manage gifts using their bank account, credit or debit card

Reduce administrative time, approve changes

- More accurate information, less data entry for staff when members update their own records
- Authorized administrators can examine, approve or deny parishioner information, providing full control over the integrity of data
- Approved changes are available instantly for all users with access to the census record
- Census information for multiple organizations can be managed from one system using a single database
- Convenient Web application gives staff and volunteers the freedom to work remotely
- Full reporting features including the ability to view suspense history

Anytime, anywhere access

- Current census information is available anytime, anywhere with an Internet connection
- Implemented user name and password requirements enforce security
- Fully integrated with all ParishSOFT products
- True Web-based capability through ParishSOFT's ConnectNow technology
- 24/7 availability with no special hardware or software required
- System requirements are an Internet connection and a compatible Web browser application, including Internet Explorer 6.0+, Firefox 2.0, or Safari 3.1

Complete Church Solution

My Own Church is part of the ConnectNow product series, offering anytime, anywhere access to powerful Web applications that connect people and the Church. ParishSOFT provides a complete suite of products that help churches manage organizations, people, finances and reporting from a single database.
