

Status Animarum Manager

Process your annual updates in a fraction of the time
with ParishSOFT.

Status Animarum Manager is the fast, easy, ONLINE way to compile and submit data for the annual report. Staff log in to your Status Animarum website and update their information online using simple electronic forms. For parishes using the ParishSOFT family suite, the process is even faster because they can gather statistics directly from their ParishSOFT Reports. Forms are submitted online directly to the diocese, where they can be reviewed, sent back for adjustments, or submitted as final to the Chancellor's office.

Saves administrative time and money

- View the submission status of all diocesan organizations from one up-to-date screen.
- Paperless forms are always available on the Web and never get misplaced or delivered to the wrong person.
- Electronic delivery saves mailing costs and eliminates the need to track, process and find missing paper forms.
- Side-by-side layout shows the previous year's listing next to this year's information, making it easy to compare information, and edits are as simple as "click and type."
- When used with the ParishSOFT suite, Status Animarum eliminates the time-consuming task of compiling statistics manually.

Provides Web-based ease and flexibility

- Web-based system lets staff submit annual updates for all of the organizations they manage from a single location, regardless of where the paper forms were delivered.
- Convenient online forms allow for last minute corrections before final submission—late fixes are comparatively cumbersome with paper forms.
- User-defined fields are also available.

Diocese Statistics	
Enter your Diocese Statistics below.
