

Status Animarum Manager

Process your annual updates in a fraction of the time with ParishSOFT.

Status Animarum Manager is the fast, easy, ONLINE way to compile and submit data for the annual Status Animarum report. Each parish enters its statistical information on the website form and submits electronically, giving the diocese direct, online access to your completed form. Parishes can gather their statistical information right from ParishSOFT Reports.

Saves administrative time and money

- Paperless forms never get misplaced or delivered to the wrong person.
- Electronic delivery saves mailing costs and eliminates the need to process paper forms.
- Yearly comparisons are easy because the form displays statistics for the current and prior years, and edits for the current year area as simple as “click and type.”
- When used with the ParishSOFT suite, Status Animarum eliminates the time-consuming task of compiling statistics manually.

Provides Web-based ease and flexibility

- Web-based system lets staff submit annual updates for all of the organizations they manage from a single location, regardless of where the paper forms were delivered.
- Convenient online forms allow for last minute corrections before final submission—late fixes are cumbersome once paper forms have been mailed to the diocese.
- User-defined fields are also available.

Diocese Statistics	
Enter your Diocese Statistics below.
