Fixed: Adding Students to Classes Occasionally Causes Application to Become Unresponsive

Previously, after the user finished adding students to a class and then selected another class, the system occasionally froze and became unresponsive. We fixed this issue.

Fixed: Class Selection Feature Sometimes Not Working

Users reported sometimes experiencing difficulty when selecting a new class on the **Classes** tab. The system either did not accept the class selection or displayed a `Session Expired` message. We fixed this issue. Users can now successfully change classes on the tab.
