Resolved Issues

Ministry ID Login

Fixed: [Single Sign-On with Ministry ID Not Working As Expected](#)

Previously, some users reported experiencing an issue after successfully logging in with their Ministry ID to another application such as Facility Calendar and ParishSOFT Giving and then trying to access Family Suite. They were not automatically signed into Family Suite and were forced to re-enter their Ministry ID credentials. We fixed this issue.

Family Suite

IQ

Fixed: [Results Incorrect for Queries Against Fund Summary > Amount Over Goal Column](#)

Previously for parishes with a pledge goal but no pledges to date, queries against the **Fund Summary > Amount Over Goal** column produced incorrect results. The **Amount Over Goal** result set showed a zero (0) value when it should have shown the parish's goal amount expressed as a negative value. We fixed this issue.

Contacting ParishSOFT

If you have questions or require support while using the application, use any of the following methods to contact us:
