# Resolved Issues

---

## Family Suite

### Family Directory

**Fixed:** [Ethnicity Dropdown List Option Not Being Saved to New Member Records](#)

We fixed the issue that prevented the selected option in the **Ethnicity** dropdown list in **Member Details** from being saved to newly added member records.

**Fixed:** [Term, Class, and Grade Filters on Group Sacrament Entry Page Incorrectly Disabled](#)

Previously in organizations with Religious Education classes, users could not select values for the **Term**, **Class**, and **Grade** filters on the **Group Sacrament Entry** page because the filters were incorrectly disabled (grayed out). We fixed this issue. Each filter is now active, allowing users to search their organization's **Religious Education** data based on the specific filter values selected.
