Resolved Issues

Family Suite

IQ

Fixed: [Queries That Include Appeal Type and Pledge Data Return No Appeal Type Results](#)

Previously, queries that pulled **Appeal Type** and pledge data returned no **Appeal Type** results. We fixed this issue. Now, when **Appeal Type** and pledge data are combined in the same query, the result set includes data for both fields.

Fixed: [Queries That Include Contributions Imported with ExternalPledgeID Value Return Errors](#)

We fixed the issue that caused IQ to return an error when attempting to process queries that included contributions imported into Offering and Development Manager with an **ExternalPledgeID** value.
