Administration

Disabled State Applied to Specific Components on the Organization Page

To prevent data errors and licensing issues, we disabled these components on the **Organization** page:

- ⊕ (Add Organization button): this button is now grayed out to prevent users from clicking it. A tooltip was added to inform users to contact ParishSOFT Support for assistance if they need to add a new organization.

- **Organization Name** field: this field does not accept text input from users, and to prohibit text entry the **Tab** key does not put focus on the field. A tooltip was added to inform users to contact ParishSOFT Support for assistance if they need to change the name of an organization.
