What's New in Version 2.27

New! Offering

Batches

Envelope Number Replaces FamilyID As Default Search Parameter for Donor Searches

Per customer request, we modified the donor search function so that it now uses the envelope number instead of the **Family ID** as the default search parameter.

Env # Field Replaces Family/Member ID in Batch Posting of Pledges

When posting pledges in a batch, users will now see the donor's envelope number as the identifier instead of the **Member ID** or **Family ID**.

Pledges

Envelope Number Replaces the Member/Family ID in Pledge Details

Per customer request, we updated **Pledge Details** so that donors are now identified by envelope number instead of by **Member ID** or **Family ID**.

Contributions

Envelope Number Replaces the Member/Family ID in Contribution Details

Per customer request, we updated **Contribution Details** so that donors are now identified by envelope number instead of by **Member ID** or **Family ID**.

Resolved Issues

Fixed! Offering Only

Batches

Fixed: Batch Postings List Report Shows Wrong Envelope Number for Closed Batches

Previously for Closed batches, the **Batch Postings List** report showed the envelope number assigned by the owner organization instead of the number assigned by the organization creating the report. We fixed this issue. For all batch statuses, the envelope number shown in the report is the one assigned to a family by the organization generating the report.
