## What's New in Version 2.29

---

### *New!* Development Manager and Offering

#### Pledges

##### Posting Process for Sustaining Gifts Modified to Improve Accuracy

We modified the posting process for sustaining gift contributions to improve the likelihood that a new contribution is associated with the right sustaining gift.

### Resolved Issues

---

### *Fixed!* Development Manager and Offering

#### Reports

##### *Fixed:* Families Count in Contribution Details Report Sometimes Incorrect

Previously, the **Contribution Details** report sometimes overreported the number of families. Families making multiple contributions were counted as distinct for each contribution made instead of only once. We fixed this issue. The report now accurately counts and reports the number of families.
