Resolved Issues

Fixed! Development Manager

Reports

103252 Fixed: Calculation Errors in Parish Master Report

Previously, the **Parish Master** report showed incorrect counts in these fields:

- **Pledges Fully Paid**
- **Pledges Outstanding**

We fixed these issues.

Pledges

103201 Fixed: Default Values Not Displayed Correctly in OBO Field in the Pledge Record

We fixed these issues with the default value displayed in the **OBO** field in the pledge record:

- When the pledge record is opened, the field is not populated with the default value.
- When the pledge record is saved, the field re-renders and changes the default value.
