Resolved Issues

Development Manager and Offering

Reports

Fixed: Family Records Sometimes Missing from PDF 250+ Version of Contribution Detail Statement Report

Previously, family records matching the criteria specified by the user in the report setup were sometimes missing from the PDF 250 + version of the **Contribution Detail Statement** report.

Contributions

Fixed: Donor Searches Occasionally Return Duplicate Family Records

Previously during contribution entry, donor searches occasionally returned duplicate family records in the **Directory Search** results window.

Development Manager

Reports

Fixed: Column Reordering Not Working in Contribution Detail Statements

Previously the column reordering function in the report setup for contribution detail statements did not work. The dragged columns did not remain in the "drop" location.

Offering

Imports

Fixed: Import History Shows Inaccurate Contribution Count for Generic Import Files

Previously, the **# Items** column on the **Import History** tab incorrectly showed a contribution count of **1** for every generic import file.

Batches

Fixed: Offering to Accounting Integration Process Not Working for Certain Batches

Previously, a batch closed in ParishSOFT Offering was not deposited into a bank account in ParishSOFT Accounting if the account to which the batch was linked was archived.
