

ConnectNow is the technology platform that delivers true browser-based church management and accounting solutions to the Catholic Church. Unlike hosted desktop solutions developed on older architecture during the days when PCs were permanent fixtures in the parish office, the ConnectNow Family Suite and ConnectNow Accounting Suite were developed specifically for the web. And the advantages for parish staff are great!

- **Work securely from anywhere** with Internet access (PC/Mac/tablet)
- **No more backups to run** — we back up your records on replicated servers at two fully redundant data centers
- **Enjoy the latest version** — we run automatic updates too!
- **Get a faster workflow** with new functionality available in ConnectNow but not in classic desktop software
- **Integration!** Because modules share a common database, you get more from your data and productivity tools

Family Suite

Accounting Suite

Current technology. Proven platform.

Since 2008, ParishSOFT's ConnectNow has been the trusted technology platform for thousands of churches using ParishSOFT's Online Giving and ConnectNow Accounting Suite. So when it came time to develop a browser-based church management suite, our users made it clear: they wanted to manage their census, sacraments, religious education, offering, and ministries on ConnectNow.

With that in mind, the ConnectNow Family Suite has been redeveloped from the ground up to blend the time-tested functionality of our desktop software with new tools and smarter, faster ways to handle the day-to-day administrative tasks and stay connected with people. Mobile tools to support Catholic ministry are here to stay. Learn more at www.parishsoft.com/connectnow.

Family Suite

Family Directory

Manage your family and member records on the web. From any device. Anywhere! The cloud-based ConnectNow Family Directory gives you the best of both worlds: powerful membership and record management and strengths-tracking tools built for efficiency and mobility. Getting data into your system – and back out of your system – has never been so fast and easy.

Accounting Suite

Ledger & Payables

Track bills, deposits, projects, restricted funds, journal entries, and budgets and get exactly the reports needed for all the various departments, projects, and committees in any church or school. L & P shares information directly with the Financial Consolidation Manager, eliminating the need to produce special annual reports for the diocese.

Offering & Pledges

Track family and member contributions, manage pledge campaigns, and get the information you need for thank-you letters, reports, and statements, all in a fresh, browser-based program that delivers high-efficiency workflows to the church office. The cloud-based ConnectNow Offering provides dashboard-level search, filter, and export capabilities that revolutionize reporting! *Includes our popular Online Giving program.*

Payroll

Manage payroll, deductions, benefits, special clergy allowances, and personal time with confidence. Timesaving features like pay groups, automatic allocation to funds/departments, and an intuitive step-through payroll process make fast work of preparing checks or an ACH file for automatic deposits. All payroll is automatically tracked in your general ledger, so there's never any need for duplicate data entry or special imports.

Religious Education

Keep your church's educational ministry organized, with the fresh, browser-based program that tracks all the administrative details so you can spend more time on people, programs, and ministry! The cloud-based ConnectNow Religious Ed streamlines the way you organize and manage your entire program. And dashboard-level search, filter, and export capabilities power your communications and reporting.

Accounts Receivable

Accounts Receivable is an easy-to-use system designed specifically to help churches and schools track invoices, due dates, payments, "customers," deposits, and more, whether you're renting church or school facilities, managing a cemetery, or charging fees for special services.

Ministry Scheduler

Recruit, engage, and involve your members in church life with our powerful ConnectNow program for complete ministry management. Members can volunteer and manage their personal service preferences on the web, making it easy – and really fast – for church staff to create accurate and balanced schedules. Let us help you say goodbye to ministry management that takes way too long and start using efficient tools to make your ministries grow and flourish.
